Objective

I am a skilled website developer with experience in building high-quality, modern, and professional websites, including company and organization sites, landing pages, blogs, personal websites, eCommerce stores, and portfolio websites. My expertise includes website development, plugin setup and installation, bug fixing, and extending site functionality. I can build a website from scratch or redesign and enhance an existing one.

Experience

Senior Front End Developer - *Bosch Digital*

2022 Jan – till now

NDA

Knowledge:

- Angular 19
- Agile
- Unit Testing with Jest
- End-to-end Testing with Cypress
- Web Workers
- MongoDB
- D3.js
- Plotly.js
- Chart.js

Location: Bulgaria, Sofia

Senior Front End Developer - *Equifax*

2020 May – 2021 Dec

I worked on a credit score management platform, where my responsibilities included developing new features, providing ongoing support, and maintaining the system. I was also partially involved in optimizing the platform by contributing to its transition toward a micro front-end architecture.

Knowledge:

- Angular 11+
- Agile
- Unit Testing with Karma
- End-to-end Testing with Protractor
- Gulp
- Cypress
- Nx
- Akita State management
- Micro Front-End
- React

Location: Ireland, Dublin

MyEquifax website: <https://my.equifax.com/>

Middle Front End Developer - *Test Triangle*

2019 Jan – 2020 May

My first project involved creating a new website for Test Triangle. My second project focused on developing a large platform for posting job opportunities for contractors. Through these projects, I gained hands-on experience with the technologies below.

Knowledge:

- React 16.4+
- Angular 6+
- Agile
- MongoDB
- Express
- Node JS
- Material Design
- Typescript
- Redux

Location: Ireland, Dublin

Test Triangle website: <https://www.testtriangle.com/>

Techfynder website: <https://techfynder.com/>

Junior Front End Developer - *2create*

2017 Jan – 2018 Dec

I joined the company as a trainee and progressed into a Junior Front-End Developer role. My responsibilities include designing, developing, and maintaining websites for the company's clients.

Knowledge:

- Webpack
- Babel
- ES6
- Rest Services
- GitHub
- HTML 5
- CSS 3
- Bootstrap
- Foundation CSS

Location: Bulgaria, Varna

Company website: <https://2create.io/>

Web Administrator - *Smart Home Sys Ltd*

2016 Dec – 2017 Mar

I worked on an international news website. During my internship, I gained experience in developing content management systems (CMS) and strengthened my skills and knowledge in PHP.

Knowledge:

- WordPress
- Unix
- PHP

Location: Bulgaria, Varna

Company website: <https://smarthomesys.eu/>
